DETAILED ACTION

Response to Amendment

1. In response to the amendment received March 15, 2007:
 - a. Claims 1-3, 5 and 7-20 are pending;
 - b. The drawing objection has been withdrawn in light of the amendment;
 - c. The specification objection has been withdrawn in light of the amendment;
 - d. The 101 and 112 rejection of claim 18 stands;
 - e. The prior art rejections of record are withdrawn in light of the amendment.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 17 and 18 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process or features involved in the battery product, results in an improper definition of a process or product, i.e., results in a claim which is not a proper process claim or product claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17 and 18 provide for the use of the bipolar battery, but, since the claim does not set forth any steps involved in the method/process/product, it is unclear what method/process/product applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Response to Arguments

4. Applicant's arguments filed March 15, 2007 have been fully considered but they are not persuasive.

Applicant has amended the language of claim 18 and now claim 17 but the inventions defined in claims 17 and 18 are construed to be exemplary of use claims which fail to clearly define the intended claimed invention.

Allowable Subject Matter

5. Claims 1-3, 5, 7-16 and 19-20 are allowed for reasons set forth in the previous office action, incorporated herein.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
